

Sandell's Plastic Weeps

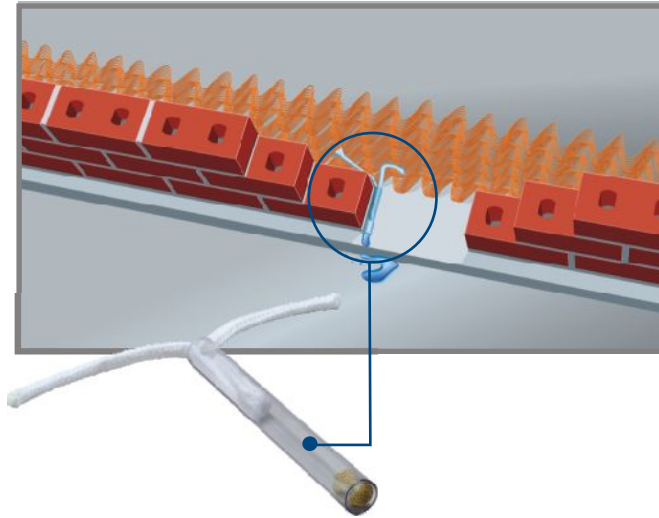

Sandell's Plastic Weep Tubes

Sandell's Round Plastic Weep Holes are used to channel moisture to the exterior of a structure through planned openings within the wall. They are composed of clear PVC, and are extremely durable.

Size:

- ◆ 3/8" x 4"
- ◆ Available with or without wick and/or screen

Sandell's Rectangular Weeps

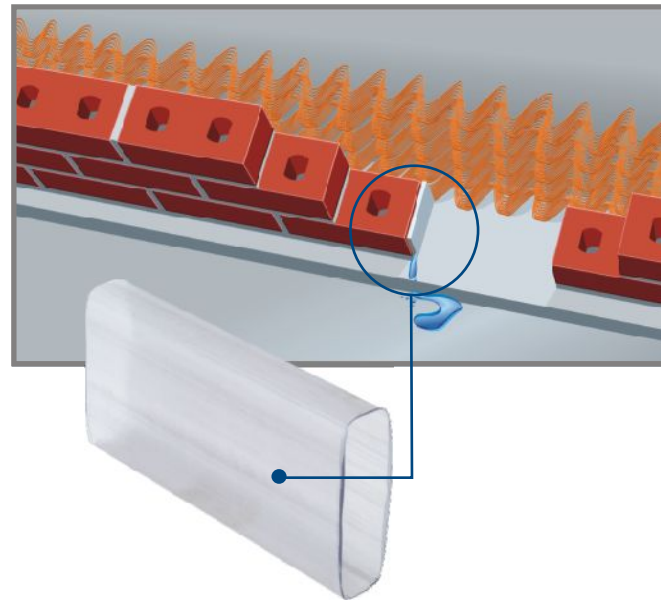

Sandell's Rectangular Plastic Weep Tube was specifically designed to sandwich perfectly between brick for an ideal fit, and to properly discharge moisture away from the structure.

Colors:

- ◆ Clear
- ◆ Gray

Size:

- ◆ 3/8" x 1-1/2" x 3-1/2"
